IT digipressto è straordinario: grazie a lui i vostri pannelli potranno diventare indicatori di direzione, banner pubblicitari, divisori di spazio o elementi decorativi per interni ed esterni. utilizzate a piacere la base in alluminio con pannelli di 30 mm: grazie alla sua speciale conformazione, pannelli di qualsiasi materiale rimangono stabili e dritti sulla base. digipressto si apre e si chiude grazie ad una vite a testa zigrinata che tiene uniti i 2 profili. i feltrini compresi nella confezione proteggono il pannello e rendono la base anti-scivolo e più stabile. nella versione in alluminio anodizzato color argento digipressto è disponibile già montato nei formati più comuni. il programma di accessori comprende tappi laterali in colore nero e 2 versioni laccate in nero rispettivamente di 100mm e 200mm (con tappi laterali neri).

DE eine tolle sache: mit ihrem paneel wird digipressto zum hinweisschild, werbebanner, raumteiler oder dekorativem element im innen- und aussenbereich. kombinieren sie das aluminiumprofil mit paneelen der stärke von 30mm. unterschiedlichste materialien werden gleichmässig eingespannt. geöffnet und geschlossen wird digipressto mittels rändelschraube. integrierte gummilitzen schützen ihr panel und geben rutschfesten stand. in silber eloxierter ausführung sind die gängigsten längen vormontiert. im zubehör programm finden sie schwarze seitenabdeckkappen. ausserdem im programm: 100mm bzw. 200mm mit schwarzer pulverbeschichtung und abdeckkappen.
